£19,500	70,400	13
£31,115	84,015	13
£53,991	104,891	13

### ASSISTED AREA SUPPORT

Barnsley's location within a Tier One Assisted Area means that companies can apply for the maximum government support towards some of the costs of relocation providing certain conditions are met.

### SELECTIVE FINANCE FOR INVESTMENT IN ENGLAND

Selective Finance for Investment in England is specially designed for businesses who are thinking of investing in Barnsley but require financial assistance to make it happen.

The support helps to fund new fixed capital, high quality projects that lead to long term improvements in productivity, skills and employment.

With this particular grant, your project should also be growth based and lead to skilled jobs.

Productivity growth is measured on the basis of gross value added per full time employee.

The level of support you receive will depend on, amongst other things, the quality of your project and its potential impact.

Successful companies typically receive around 10% to 15% of the project's total eligible expenditure.

The minimum threshold for applications is a grant value of £10,000 but if you are seeking support of £100,000 or more your project will need to demonstrate job creation or retention.

**BDA CAN PROVIDE FURTHER DETAILS OF A VARIETY OF SUPPORT COVERING RESEARCH AND DEVELOPMENT, INNOVATION, SPECIALIST CONSULTANCY AND OVERSEAS MARKET DEVELOPMENT.**
